SUMMARY

Dynamic and motivated FrontEnd Developer with a keen eye for User Interface (UI) and User Experience (UX) design principles. Proficient in modern web technologies such as HTML5, CSS3, JavaScript, and frameworks like React js Adept at translating design mockups into responsive and interactive web experiences. Passionate about creating intuitive and visually appealing interfaces to enhance user engagement and satisfaction. Eager to contribute skills and enthusiasm to a dynamic development team. Motivated Junior Developer with strong educational and practical backgrounds focused on web development. Employs technical and programming knowledge to build and enhance successful websites. Expertise includes multiple languages with extensive use of Frameworks and Libraries.

EXPERIENCE

Intern Junior Developer

Feb 2024 – Apr 2024

Developed a comprehensive Feedback module using PHP, Bootstrap, and SQL database to gather feedback from over 10,000 students. Collaborated with the development team to design and implement the user interface for the module, ensuring a seamless user experience. Implemented database management techniques to efficiently store and retrieve feedback data, ensuring scalability and performance. Conducted thorough testing and debugging to ensure the functionality and reliability of the Feedback module across various browsers and devices. Participated in regular team meetings to discuss project progress, troubleshoot issues, and propose innovative solutions to enhance the module's functionality. Demonstrated strong problem-solving skills and attention to detail in identifying and resolving technical challenges throughout the development process.

UI/UX Intern

Jan 2024 - Current

Led the redesign initiative of CSMU College's website, focusing on enhancing user experience and visual appeal. Developed wireframes, prototypes, and mockups using industry-standard tools such as Figma or Sketch to communicate design concepts and gather feedback from stakeholders. Collaborated closely with cross-functional teams including developers, content creators, and administrators to ensure alignment with project goals and technical feasibility. Implemented responsive design principles to optimize the website for seamless performance across various devices and screen size. Incorporated user-centric design elements and intuitive navigation
